

Jackson®

2026 INTERNATIONAL CATALOGUE

When you step into nature, you also come back to yourself.

Out there, the world gets quiet, and your mind clears.

That's the real magic of fishing.

Jackson isn't just a company that makes gear.

The sea, the mountains, and the rivers are places that calm us, teach us,
and make us better.

We're committed to protecting fishing culture and passing on the joy of
being in nature to the next generation—
through the products we craft and the actions we take.

NEW CLEAR-S Popper

Patent registration completed
Patent No. 7032806

Patent Pending
Vortex Generator
VG applied

- Size : 100mm
- Weight : 50g
- Type : Sinking
- Hook : Twin Assist #4/0
- Color : 6
- Price : ¥2,100

When the bait is scattered over a wide area or so dense that your lure becomes invisible, you need a strong visual and acoustic appeal — that's when a popper is most effective.

However, conventional floating poppers are often too light to reach distant bait schools and tend to drift easily in the wind. Developed to solve these issues, the Clear-S Popper features a solid sinking body that achieves a unique transparency unattainable with hollow lures. Its compact silhouette still delivers a strong presence through popping and bubbling action. The top-mounted eye and downward water-dispersing cup shape enhance lift, ensuring consistent surface popping even at a slow retrieve. Equipped with thick-wire twin assist hooks, it offers excellent hook hold and prevents lost fish. Hooks can also be replaced with triple or single types depending on angler preference. The Clear-S Popper — a lure specialized for Katsuo (bonito) fishing.

NEW RYUSEN 120

- Size : 120mm
- Weight : 12g
- Type : Floating
- Hook : #8
- Color : 6
- Price : ¥1,850

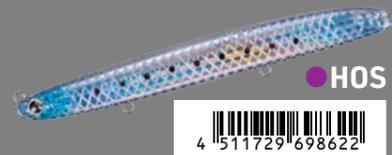

Patent registration completed
Patent No. 7032806

Patent Pending
Vortex Generator
VG applied

The eye positioned on top of the head creates a subtle, weak slalom action even at dead-slow retrieves, effectively mimicking bait-fish drifting downstream in the current. By adjusting rod position and retrieve speed, you can freely trace a depth range from just below the surface to around 30 cm.

Common floating pencil limitations such as poor casting distance are solved with the use of a magnet-assisted weight transfer system and VG (Vortex Generator). This ensures outstanding casting distance and quick swimming action on startup, making it highly effective in targeting surface-range fish even far offshore.

Whether it's the bachi-nuke (worm hatch), halfbeak, or microbait pattern, this lure adapts to various situations with a high degree of precision—captivating a wide range of predatory fish.

飛び過ぎ Daniel

Tobisugi Daniel
14g / 20g
30g / 40g

- 14g ■ Size: 61mm ■ Weight: 14g ■ Hook: #12 ■ Color: 8 ■ Price: ¥1,150
- 20g ■ Size: 67mm ■ Weight: 20g ■ Hook: #10 ■ Color: 8 ■ Price: ¥1,200
- 30g ■ Size: 80mm ■ Weight: 30g ■ Hook: #6 ■ Color: 8 ■ Price: ¥1,300
- 40g ■ Size: 85mm ■ Weight: 40g ■ Hook: #6 ■ Color: 8 ■ Price: ¥1,400

Renowned for its overwhelming casting distance and wide wobbling action, the Tobisugi Daniel has evolved into a new series featuring reinforced hooks. Hooking stability and durability have been greatly improved, allowing anglers to confidently target powerful species such as large bluefish and trophy-sized flounder. The color lineup ranges from highly appealing patterns to natural tones, enabling strategic color selection to match water conditions, light intensity, and baitfish patterns—offering exceptional adaptability in any situation. From surf to harbors, rivers, and rocky shores, this lure covers a wide range of fields. Despite its compact weight, it delivers astonishing casting performance and a bold, wide wobbling action that provokes predatory fish across a broad area. While inheriting the DNA of the original Tobisugi Daniel, this evolved model combines enhanced strength, reliability, and a fresh range of color variations to meet the demands of modern anglers.

NEW

Mixture

Athlete 50WS

- Size: 50mm
- Weight: 4.5g
- Type: Sinking
- Hook: #12
- Color: 6
- Price: ¥1,600

The Athlete 50WS is a sinking double-prop swisher that eliminates typical body actions like wobbling and rolling, instead attracting targets purely through the vibrations produced by its front and rear propellers. It features a straight-line "I-shape" action, which is effective for fish that shy away from lures with aggressive movements. However, such lures often lack appeal—something the Athlete 50WS overcomes with the subtle, enticing vibrations generated by its spinning props.

This unique combination of a natural, bite-inducing action and fish-attracting vibration results in a surprisingly effective lure. Simply cast and retrieve slowly—the lift generated by the propellers makes it easy to maintain depth, allowing even beginners to use it with confidence. When all other lures fail to draw a strike, try the Athlete 50WS as your last resort—it might just turn the tide.

G-Control 28

G-Control 28, known for its overwhelming casting distance and excellent lift generated by the secondary lip on its belly, has evolved into a new series featuring reinforced hooks. With improved stability and durability after hooking, it allows anglers to confidently take on powerful targets such as large bluefish and trophy-sized seabass. The color lineup has also been refined, now offering a strategic selection specifically designed for bluefish, delivering outstanding performance in a wide range of situations. Although it is a 28g heavy sinking model, the lift created by its secondary lip enables smooth swimming even at slow retrieve speeds—comparable to that of a 14g sinking minnow. Its combined wobbling and rolling action presents a more natural and lifelike appeal to fish. Every element of its design has been meticulously engineered to deliver reliable performance with every cast. G-Control — The next-generation standard for anglers.

Pin Tail サゴシ Tune Pin Tail サワラ Tune

The Pintail Sagoshi Tune and Pintail Sawara Tune, specially designed for targeting Spanish mackerel and Japanese Spanish mackerel, have been reborn as a new series featuring reinforced hooks. With improved durability and stability after hooking, anglers can confidently take on even large Sawara. The color lineup has also evolved, offering a strategic selection focused on bluefish and mackerel species, demonstrating strong performance across a variety of conditions. The lure's unique water push created by its pintail design, combined with a wide wobbling and rolling action, powerfully triggers the predatory instincts of Sagoshi and Sawara. Its excellent casting distance allows anglers to efficiently cover a wide area. From surf and harbors to rivers, rocky shores, and offshore fields, this high-performance model integrates long casting ability, strength, and responsive action at the highest level for practical, real-world fishing.

NEW SIZE

Maccheroni 150g

The "Maccheroni" is a full-fledged original Tyraba that looks like macaroni and has a familiar shape, but inside it is packed with elements that make it a great offshore fishing tool. A depression in the back of the head is designed to house the hook parts, preventing the hook from getting caught on the line during the fall and allowing it to be integrated with the head. In addition, the appearance of the horizontal shape creates the appearance of a small fish running away from a predator. This unique head can also be used with a worm with an offset hook or by replacing the blade parts, allowing the angler to target a wide range of fish eaters, including not only sea bream, but also root fish and bluefish. The "Maccheroni" is an original Tyraba lure developed to be used as the "ultimate weapon" in situations where fish are reluctant to bite at famous fishing spots crowded with boats.

NEW Artist FR120HWT

With its through-body construction and high density, this version of the ARTIST was specially developed for fishing tuna, bonito, little tunny, and bluefish. Sinking and designed for extra fast retrieves and actions and is an incredible lure for 'twitching' becoming a true bundle of nervous energy that comes to life with the slightest movement of the rod.

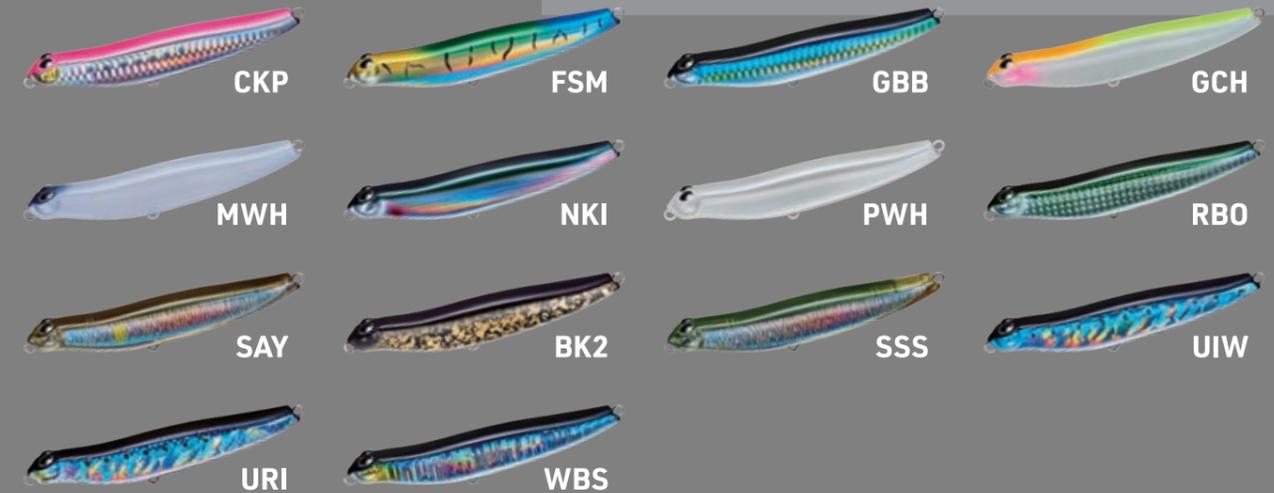

■ Size : 120mm ■ Weight : 40g ■ Type : Sinking ■ Hook : #1 ■ Color : 14 ■ Price : ¥2,300

NEW Debu Nyoro 60

■ Size : 60mm ■ Weight : 6g
 ■ Type : Sinking ■ Hook : #12
 ■ Color : 14 ■ Price : ¥1,550

This stickbait is specially designed to produce an "S"-shaped swimming action which, combined with a slow retrieve, mimics a wounded fish, effectively attracting predators on the surface or near structures. It is particularly effective for asp thanks to its ability to create erratic movements during faster techniques such as jerking or twitching—techniques that also prove deadly for perch, trout, and even sea bass.

NEW Z-Pivot

This slightly curved-bodied stickbait has been precisely balanced to deliver a highly pronounced, pivoting swimming action—so much so that, with a bit of practice, it can almost be made to undulate in place. Its buoyancy is calibrated so that only the head stays above the surface when at rest, allowing it to respond instantly to the slightest twitch in a walk-the-dog style, even in choppy conditions. With the rod held low, it can also be worked just beneath the surface film. Thanks to its high density, it casts extremely far—even in strong winds.

TUBE MAGIC

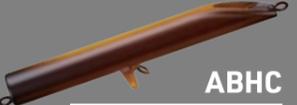

■ Size : 50mm ■ Weight : 1g
 ■ Type : Sinking ■ Hook : #8
 ■ Color : 8 ■ Price : ¥850

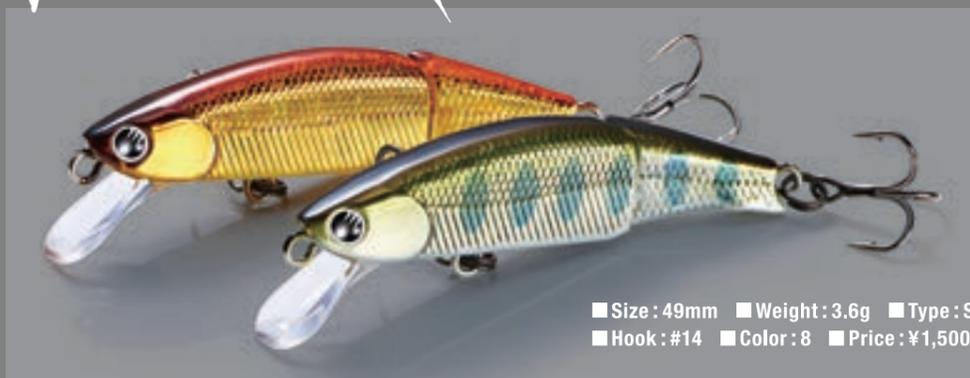

The Power of "Nothingness"

An ultra-low impact lure, meticulously designed with an uncompromising focus on weak vibration to trigger bites from even the most pressured fish. To eliminate even the slightest water displacement, it employs a water-through tube structure. On a dead-slow retrieve, it produces only a rolling action without generating any water vibration, appealing solely through visual changes. By keeping the rod tip up and retrieving near the surface, it creates I-shaped ripples, allowing for a thrilling topwater-style approach during insect-rich seasons.

NEW METEORA Joint 49

■ Size : 49mm ■ Weight : 3.6g ■ Type : Sinking
 ■ Hook : #14 ■ Color : 8 ■ Price : ¥1,500

A Jointed Minnow That Keeps Enticing Underwater

Rather than simply separating the body to create a joint, a tapered cut has been adopted that takes into account the lure's underwater posture and the range of motion of both the back and belly through its wobble & roll action. This design generates a twisted motion while significantly reducing the line tangling of the tail hook, a common issue with jointed minnows. The tail itself is equipped with a tail-end cup that actively grabs water, giving purposeful movement to what used to be a free-swinging section in conventional jointed minnows. By capturing water, the tail produces subtle fluttering on the fall and while paused, as well as quick responses to angler input. Combined with the strong flash and water displacement of its flat-sided body, this expands the lure's range of appeal even further.

The Enchanting Power of the Metal Lip

A super high-pitch, wide-wobbling crankbait featuring a metal lip. The powerful vibrations it generates make it stand out even in waters crowded with many lures. It swims from a dead-slow crawl to a vigorous flutter, and increasing the retrieve speed enables a zigzag action. The uncoated metal lip used in some color variations produces flashing that differs from the body's flash, providing a unique attraction effect. Maximum diving depth is approximately 2m.

C&R NET

GMC

Price: ¥6,000

Catch-and-release areas are becoming increasingly common, and it's not unusual to find sections holding large rainbow trout. However, standard stream nets are often too small, and carrying a long-shafted large net can be cumbersome. The C&R NET solves these problems with a large rubber net paired with a short shaft, allowing anglers to carry it as easily as a regular stream net while safely landing monster-sized fish without causing injury. By switching to the included long shaft, it transforms into a 2-way net suitable for managed fishing ponds as well.

NEW

Trout Signal 46UL

A standard rod in harmony with nature.

《Specification》

TRSS-46UL

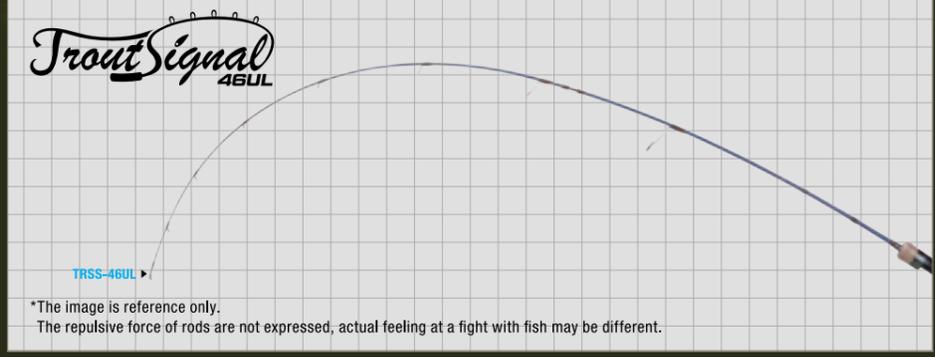

A model tailored for small sinking minnows and other lightweight lures used in mountain stream fishing. With a total length of 4 feet 6 inches, it offers excellent maneuverability, making it a nimble and responsive rod that performs perfectly in small rivers and confined spaces.

"Selected by Jackson"
The brand that make anglers feel "I wish I had this"

SELECTED
BY JACKSON

NEW
SIZE

The long-awaited Mini Posh, a smaller version of the popular silicone pouch Posh, is finally here!

Its compact size pairs perfectly with smaller bags like shoulder or crossbody bags, while still offering enough capacity to hold about a day's worth of trash (roughly 15 tissues). Made of environmentally and skin-friendly silicone material, it's easy to wash and reuse. Ideal not only for fishing spots but also for camping, in-car use, at your desk, or even as a treat pouch for pets during walks — the Mini Posh is ready to support your everyday adventures in style and convenience.

Offshore Tribe

The offshore tribe allow you to enjoy offshore casting more than anyone else

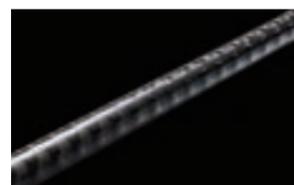

Following Surf Tribe and Metal Tribe, "Offshore Tribe" was developed by Jackson so anglers can really enjoy offshore casting. All models are equipped with Jackson's original blank, which was completed by developing materials from scratch to counter the strong pull of blue fish and the powerful fight of tuna. An original guide setting that matches the target by changing the shape of the guide in the right place. The original grip allows to the angler to grip firmly at the right time. The offshore Tribe was developed with the concept of "enjoying offshore casting more than anyone else", is now finally released.

Loosening prevention double nut specification

An original grip that enhances hold and grip strength and pursues ease of grip

An original material that reinforces the repulsion of the rod by strengthen the butt part necessary to float the fish and you can never lose the offense and defense on the boat

《Specification》

OTLS-73ML PE #1 to #3, ML class assuming lure weight 20g to 60g. Although the thick Jackson original blank is an ML class, it can withstand the forcible pull of a 10kg class blue-runner, and the resilience of the rod lifts the target and allows anglers to fight more effectively.

Length (cm / ft)	Power	Lure Weight	Line	Max Drag (kg/60')	Self Weight	Collapsed Size	Piece	Tip Diameter

Place rods at 45 degrees with 2000g weight statically and vertically.

*The image is reference only. The repulsive force of rods are not expressed, actual feeling at a fight with fish may be different.

Metal Tribe

Metal tribe where you can enjoy shore jigging even in extreme situations

In the surf live series, Jackson, who has built tremendous trust from anglers, has developed a shore jigging exclusive model "Metal Tribe" as a new challenge. There are various situations to use it even though it is a shore jigging rod, and it can be used in many locations such as embankments, rocky shore and surf. It is a rod that can withstand hard use and can catch fish even in extreme situations. This series has been repeatedly tested as a model that allows anyone to accurately cast at boiling Nabla and to increase the flight distance by using the rods power reservoir. The main target fish for shore jigging is blue-back fish, but as the size of the fish increases, the power increases dramatically. The offense and defense at rocky shore that can never be defeated by torqueful pull, and the butt section is reinforced with cross tape to strengthen the repulsion of the rod. The front EVA grip adopts an oval shape in order to obtain a hold grip force that could not be obtained with the conventional circular cross-sectional shape and prevents slipping in seawater when lifted. "Metal Tribe" is a rod that guides the trophy fish into the hands of the angler taking full control without losing out to the large fish that can be targeted by shore jigging.

K guide frames by Fuji are equipped.

Double nut system which has endurance for line tangle.

The ergonomic foregrip is designed for comfort and performance.

The Cross tape material is used in the blank weave to reinforce and increase sensitivity in the butt section of the rod.

A shrinkable bag with an original shoulder belt is included. Rod can be stored compactly. It comes in handy when you want to change the shore.

《Specification》

MTX-908M A model that combines finesse and power to operate jigs from 30g to 80g lightly. As for the plug, the allowable range that can cast is up to 60g. Since the length is shorter than other models, the weight has been reduced as its been developed as a model that puts less strain on the body when using jigs and plugs. It is rod that can be recommended as an entry model for full-scale shore jigging and as a sub rod when using lightweight lures other than metal jigs.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
295cm / 9ft8in	Medium	Jig: 30~80g Plug: ~60g	PE MAX #3	Fast	257g	151cm	2	2.5mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥29,000

MTX-1000MH A standard shore jigging model developed for operating jigs from 60g to 100g. As for the plug, the recommended range that can cast is up to 80g. It is a model that pursues flight distance and operability, aiming for the next higher standard. The blanks are both strong and flexible and can be used for large fish that come unexpectedly, allowing the angler to fully enjoy shore jigging.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
305cm / 10ft	Medium Heavy	Jig: 60~100g Plug: ~80g	PE MAX #4	Fast	308g	156.5cm	2	2.5mm

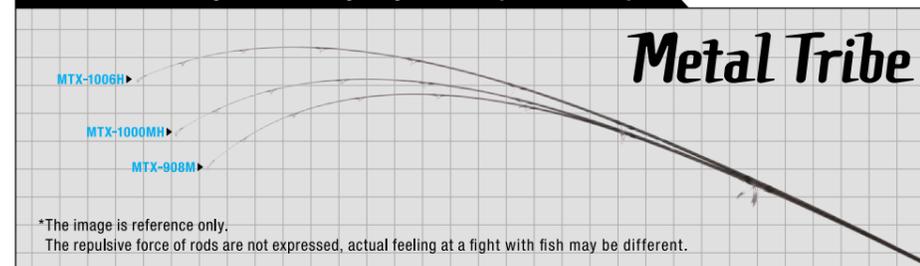

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥30,000

MTX-1006H A shore jigging power model developed to operate jigs from 60g to 120g. As for the plug, the recommended range that can cast up to 100g. It has ultra-long throw performance that makes the best use of its full length, and can fight well against Nabla, which is not capable until now. The butt power is also the strongest in the series, and it is equipped with blanks that are suitable to large blue-back fish. From the tip to the butt, it has flexibility, but still manages the ability to retrieve diving pencils with amazing results.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
320cm / 10ft6in	Heavy	Jig: 60~120g Plug: ~100g	PE MAX #5	Fast	331g	164cm	2	2.5mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥31,000

Place rods at 30 degrees with 500g weight statically and vertically.

Surf Tribe

— halibut model —

《Specification》

STHS-9102L For the finesse

Developed to target fish that refuse to bite in highly pressured surf conditions, this is a specialized surf finesse model. Its design allows the blank to flex deeply even with ultra-light jig heads, converting that flex into repulsive force that delivers impressive casting distance. The supple tubular tip responds reliably to subtle, bite-and-hold strikes, ensuring you won't miss delicate bites and helping lead them into a solid hook-set. Combining crisp handling with exceptional sensitivity, this rod is versatile enough to cover a wide range of techniques—from worming to metal jigging.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
301cm / 9ft10in	Light	5-20g	PE #0.4-1	Fast	145g	154cm	2	1.8mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥29,500

STLS-9062L+ Less is more

Super Light Shore Jigging continues to gain popularity across the country, and this all-round model is designed to let anglers fully enjoy its light, crisp handling and exhilarating fight. It is engineered to effortlessly handle not only the main 15g-class metal jigs, but also minnows, sinking pencils, and jighead rigs with ease. The blank, made with 40-ton carbon, achieves an excellent balance of lightness and repulsive power, delivering impressive casting distance even with lightweight lures. With its versatile 9ft 6in length, this rod performs exceptionally well from the surf to harbor areas, making it a highly adaptable choice for various situations.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
290cm / 9ft6in	Light +POWER	MAX30g	PE #0.4-1	Fast	148g	148cm	2	1.7mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥32,000

STHS-1082ML Flexible and sensitive

This popular model delivers the perfect balance of sensitivity, lightness, and handling performance. The blank, constructed with 40-ton carbon, offers a crisp, metallic firmness that clearly transmits changes in current, bottom structure, and even the most delicate bites. In addition, carbon sheets are layered at 90 degrees to provide exceptional strength and resilience. During casting, the strong repulsive force launches lures sharply, achieving impressive casting distance. Once hooked, fish can be controlled exactly as intended—making this rod a highly satisfying choice for anglers progressing beyond the beginner stage as well as for experienced veterans.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
325cm / 10ft8in	Medium Light	7-40g	PE #0.8-2	Fast	185g	167cm	2	1.8mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥32,000

STHS-1062M The all-rounder

This standard surf model is designed to handle heavy-weight plugs and metal jigs with precision. Its well-balanced 10.6 ft length offers an excellent combination of long-distance casting performance and lure control. The blank, built primarily with 40-ton carbon, provides a light, crisp swing-through and consistently stable casting distance. With powerful butt strength capable of landing trophy-sized flatfish, it accommodates a wide range of lures—from long minnows and jighead rigs to metal jigs up to 45g. A true all-round rod that covers every aspect of surf fishing.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
322cm / 10ft6in	Medium	10-45g	PE #0.8-2	Fast	199g	164cm	2	1.8mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥31,500

STHS-1112MH Long dynamo

This long-range model is designed for situations where overwhelming casting distance is essential, such as shallow surf zones or strong wind conditions. The 11.1 ft blank, built with 40-ton carbon, balances flexibility with repulsive power, allowing you to deliver lures to fish holding far offshore. It handles 30-40g plugs and vibrations with ease, and can also accommodate metal jigs up to 60g. With the power to target large flatfish, trophy seabass, and even bluefish, this rod brings a wide range of big-game species within reach. Despite its length, it offers surprisingly crisp and agile handling, achieving casting distances that push the limits of surf fishing.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
333cm / 11ft1in	Medium Heavy	12-60g	PE #0.8-2	Fast	212g	170cm	2	1.8mm

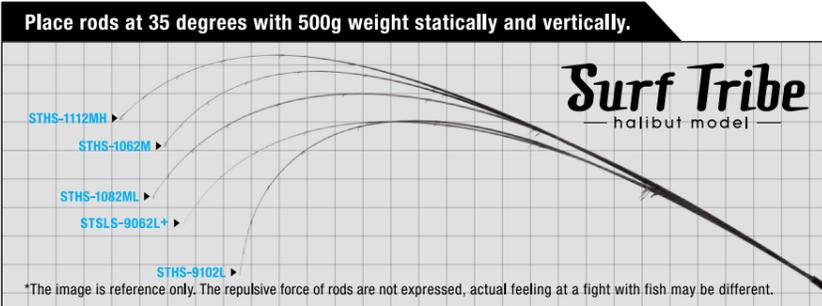

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥32,500

STLS-9062L+ Only

EVA hood parts that support jig operation.

JESTER

Enjoyable experience for sea bass fishing

This rod has been designed in collaboration with an experienced captain of a popular sea bass boat at Tokyo bay. Based on the tour guides experience we pursued the rod which anglers need now. Our conclusion was the "Ability to accommodate", and a build a rod which can adopt to varying circumstances where there is constant change and anglers can then still fish with enjoyment and ease. So the "JESTER" was born. Improving on the basic performance features, it has flexibility which anglers can feel and enjoy through the chrome blank which can adopt many situations, showing versatility at all times. Fitted with TORZITE rings by Fuji for ultimate performance and blank suitability. Without compromise, we proudly introduce JESTER.

《Specification》

JSS-610M-SP

An all-purpose model optimized for boat seabass fishing. The original SP system follows the fish's run and responds instantly to sudden surges. It handles trophy-size seabass and even mid-sized pelagics with ease, providing solid hookups through its smooth tip and resilient belly section. A well-balanced rod rated up to 35g.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
210cm / 6ft10in	Medium Suspension	MAX35g	PE MAX#1.5	Regular	115g	177cm	2	1.5mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥39,500

JSS-611MH

Positioned between the JSS-610M-SP and JSS-701XMH-SP, this model adopts MH power with an action designed to handle vibrations and large minnows with precision. Featuring a taper different from the SP system, it enables an aggressive fighting style that prevents the fish from taking control.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
211cm / 6ft11in	Medium Heavy	MAX45g	PE MAX#2	Regular Fast	115g	175cm	2	1.7mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥37,500

JSS-701XMH-SP

Combining the maneuverability of a mahi-mahi rod with power that surpasses standard boat-seabass models, this rod is built to handle mid-sized pelagics, bonito, and trophy seabass. It inherits the SP system, enabling forceful landings when needed, while the guide layout supports thicker lines for excellent operability and control.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
216cm / 7ft1in	Medium Heavy Suspension	MAX60g	PE MAX#3	Regular	137g	178cm	2	1.6mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥43,000

JSS-705XMH+ LC

A long-cast model specialized for targeting surface-feeding bust-ups. The reinforced belly section controls powerful runs, making it highly effective for jumping Spanish mackerel, selective bonito, and big-bait seabass approaches. It truly shines in situations where maximum casting distance is essential.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
226cm / 7ft5in	Medium Heavy +POWER	MAX65g	PE MAX#3	Fast	158g	185cm	2	2.1mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥42,500

JSC-66TL-P+

A flip-casting rod engineered for precision casts with baitcasting tackle. Equipped with a TL action that allows light lures to be delivered with pinpoint accuracy, it achieves the perfect balance of finesse and power. It provides both the strength needed to pull fish out of heavy structure and the high operability required for technical presentations.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
199cm / 6ft6in	Technical Light +POWER	MAX20g	PE MAX#1.5	Regular	116g	168cm	2	1.4mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥40,500

JSC-62IIHX

A big-bait-specific model supervised by Mr. Ikegami. This torque-rich short rod is designed to maintain the unique action of large pencil baits with ease. Featuring a carbon fat grip, it delivers stress-free, highly comfortable handling for continuous big-bait operation.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
188cm / 6ft2in	IIIExtra Heavy	MAX180g	PE MAX#6	Fast	152g	138cm	2	2.4mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥39,500

《SP System》

The unique suspension performance (SP System) is designed to give the entire blank smooth follow-through and strong recovery power. The rod automatically creates the optimal bend according to the fish's pull, maintaining constant tension and greatly reducing line breaks and hook-outs. It reacts instantly to sudden runs near the boat, absorbing shock on impact. Thanks to this system, which combines both strength and flexibility, anglers can fight large seabass, bluefish, and flatfish with stability and confidence.

《TL Action》

Born from Jackson's proprietary technology, the "TL Action (Technical Light Action)" is a next-generation blank design that combines crisp handling with powerful rebound performance. Even with a compact casting motion, it generates sufficient repulsive force, allowing you to deliver lures accurately to your target. In addition, by optimally arranging different carbon materials for each section of the blank, it provides overwh elming torque and power—strong enough to pull seabass out from deep within structure.

Grip design has both design and functionality.

Made from original material to provide power and increase hook up rates.

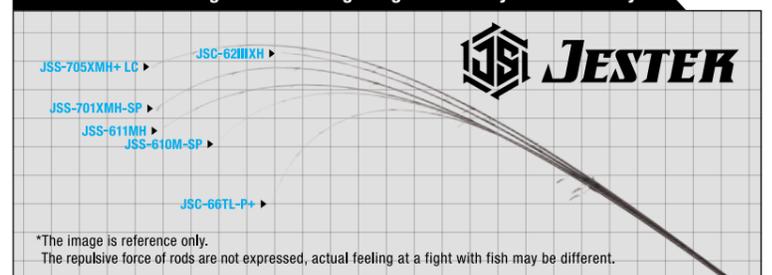

JSS-610M-SP / JSS-701XMH-SP / JSC-66TL-P+ uses a titanium frame TORZITE ring.

JSS-611MH / JSS-705XMH+LC uses a titanium frame SIC-S ring.

JSC-62IIHX uses a stainless frame SIC-S ring.

Fuji guide is utilized.

Place rods at 35 degrees with 350g weight statically and vertically.

Rock Tribe

《Specification》

RTS-804H-MHST

A new standard model that sets the benchmark for modern rockfish games. The hard solid tip delivers both exceptional sensitivity and precise lure control, allowing you to read bottom structure and trigger decisive bites. An innovative rod that excels in both steady retrieves and vertical/targeted approaches.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter

OCEAN GATE

— Offshore Casting —

The appearance of the long-awaited offshore casting model of the OG series! You can enjoy fighting large migratory fish using the light and sensitive blanks without losing power.

Even OG offshore casting series is offered at low price, it incorporating all the elements required for casting games that are becoming more popular year by year. The blanks are low-elasticity carbon to accommodate larger pelagic species and maximizes stickiness and torque. The guides are Fuji-made K guide frames to improve long casting and ease of operability. The grip shape is designed to increase the ease of casting and the holding power during fighting.

K guide frames by Fuji are equipped. The use of PE line is safer due to alconite adopted for the ring.

《Specification》

JOG-700L-K LC

A versatile rod capable of handling everything from lightweight minnows to jigs up to 40g. It targets not only small to mid-sized bluefish but can also take on 10kg-class yellowtail. The flexible blank follows the headshakes of species like Spanish mackerel, helping to reduce lost fish. Designed for excellent maneuverability, it supports a wide variety of casting styles.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
213cm / 7ft	Light	MAX40g	PE MAX#2	Fast	185g	164cm	2	1.7mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥17,500

JOG-702L-K OC

A light model capable of handling everything from ultra-high-speed retrieves with blade jigs to aggressive jerking techniques. Its flexible tip prevents hooks from bouncing out, while the blank has the strength to handle 10kg-class yellowtail. The resilient blank also reduces tear-outs when targeting species like Spanish mackerel, making it an excellent all-round rod for minnow retrieves as well.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
218cm / 7ft2in	Light	MAX50g	PE MAX#3	Fast	214g	164cm	2	1.9mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥18,000

JOG-705ML-K OC

An all-round inshore model designed to handle 10kg-class bluefish such as Spanish mackerel, yellowtail, and bonito. Its 7ft 5in length provides an excellent balance of casting distance and lure control. With a max lure weight of 60g, it is a highly versatile rod that accommodates everything from plugs to blade jigs.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
226cm / 7ft5in	Medium Light	MAX60g	PE MAX#3	Fast	244g	173cm	2	2.0mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥18,500

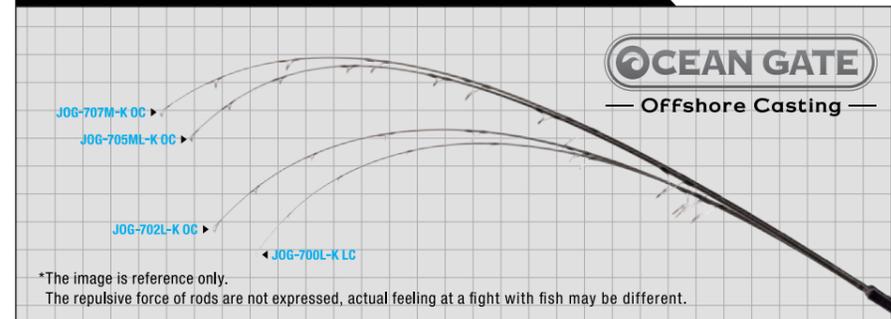

JOG-707M-K OC

A medium-power model specialized for nearshore offshore casting. It handles everything from topwater games for dolphinfish and amberjack to jig-jerking techniques. With a blank strong enough to take on 10kg-class bluefish, this rod offers an excellent balance of casting distance and lure control.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter

— Boat Sea Bass —

Make the Boat Sea Bass more accessible. From the Ocean Gate series, a new classic rod was born in pursuit of standards.

Seabass boat fishing game has numerous feeding patterns throughout the year. Sometimes he approaches delicately with a "Nyoro-Nyoro" sinking pencil, and sometimes he gets excited by an intense bite that allows for a topwater style with a big bait. There are many different situations for a single fish species, and each one has an answer. The development started with the idea that people should feel the appeal of such boat seabass games closer to home. All four models from the small selection are standard rods that are easy for anyone to handle with the emphasis on operability.

K guide frames by Fuji are equipped. The use of PE line is safer due to alconite adpoted for the ring.

《Specification》

JOG-S607ML BS

The lightest model in the series. A versatile light all-round rod designed for small to mid-sized plugs and worming techniques. Its sensitive tip provides excellent lure control, making it highly effective for light-game targets such as boat rockfish and mebaru.

— Sea Bass —

The long-awaited full renewal of "Ocean Gate Seabass", which pursues the basics of seabass games to the utmost limit while being reasonably priced.

Urban rivers, harbors, surf and estuaries. A cast that is repeated with dozens of throws under all circumstances such as the flow, twist, and terrain change that you feel when retrieving the lure which will then lead to the next throw, and the angler will accumulate the information obtained from the field while repeating this casting. Ocean Gate Seabass uses medium elastic blanks so anyone can smoothly repeat the basic "casting" in the seabass game that make it easy to use the weight of the lure when casting. We have a lineup of three main models to support various scenarios. Please experience "Ocean Gate Seabass" which pursues the basics of seabass game while being priced reasonably.

K guide frames by Fuji are equipped. The use of PE line is safer due to alconite adpoted for the ring.

《Specification》

JOG-900ML-K SeaBass

A technical model ideal for fishing in harbors and mid-sized rivers. It provides crisp control over minnows and sinking pencils, while also handling delicate presentations with small vibration lures and soft baits. A versatile rod that combines ease of handling with excellent maneuverability.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter

— AJI —

Improved with latest technology

Ocean Gate Aji & Mebaru model released in 2015 has gained popularity for its cost performance and high quality. So this rod has been subdivided as a rod dedicated to Aji fishing. Retuned with renewed lightness and sensitivity to handle the technical skills required for Aji fishing and constant fishing from the angler side.

K guide frames by Fuji are equipped. The use of PE line is safer due to alconite adpoted for the ring.

《Specification》

JOG-55UL-K ST AJ

A short-length solid-tip model specialized for jighead-only fishing. Its razor-sharp sensitivity clearly detects even the slightest bites and enables instant hook-sets. Perfect not only for targeting small horse mackerel (mame-aji), but also for enjoying the full thrill of "hooking by feel" in close-range situations.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
166cm / 5ft5in	Ultra Light	0.2-5g	2.5lb	Extra Fast	72g	85.5cm	2	0.7mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥16,000

JOG-600XL-K ST AJ

A jighead-special model ideal for close-range fishing around streetlights and other illuminated areas. Featuring the most delicate tip in the series, it captures even the shortest, faintest bites, making it highly effective for targeting small horse mackerel (mame-aji) and during tough, low-bite conditions.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
182cm / 6ft	Extra Light	0.2-5g	2lb	Extra Fast	72g	95.5cm	2	0.7mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥16,000

JOG-604UL-K ST AJ

A versatile standard model that delivers the perfect balance of sensitivity, control, and casting distance. Ideal not only for jighead-only rigs in harbors and along breakwaters, but also for the crisp, responsive handling of micro plugs. A user-friendly and highly reliable rod for a wide range of light-game situations.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
193cm / 6ft4in	Ultra Light	0.4-7g	2.5lb	Extra Fast	76g	101cm	2	0.7mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥16,500

JOG-610L-K ST AJ

A versatile model that handles everything from jighead-only rigs to Carolina rigs and micro jigs. Its well-balanced 6'10" length covers a wide range of situations, including elevated platforms and rocky shorelines. A true all-rounder that allows you to enjoy multiple styles of fishing with a single rod.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
208cm / 6ft10in	Light	0.4-10g	3lb	Extra Fast	77g	107.5cm	2	0.7mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥17,000

Place rods at 30 degrees with 100g weight statically and vertically.

*The image is reference only. The repulsive force of rods are not expressed, actual feeling at a fight with fish may be different.

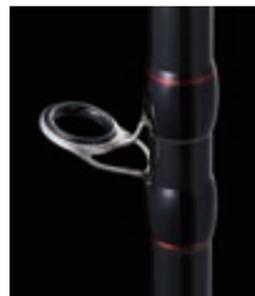

— TAKO —

Fusion of toughness and delicacy. From Ocean Gate series, Octopus begins

"Octopus" has been established as a target that can be enjoyed widely from boats and shore-based fishing. At first glance, this fishing feels exciting, but it is highly game-friendly, delicate, and deep, such as how to lift it so that it does not stick to the octopus after hugging it with a temptation. When fishing for octopus, there needs to be a balance of finesse and power to tempt, then land the Octopus. The tip has two models, glass solid and a slightly tubular tip which make it possible to hold the octopus deeply without feeling any discomfort. It also has butt power that lift the hooked octopus with torque produced by thickly wound low elasticity carbon. Experience the Ocean Gate Tako, a fusion of toughness and finesse.

K guide frames by Fuji are equipped. The use of PE line is safer due to alconite adpoted for the ring.

《Specification》

JOG-B600XH TAKO

The glass solid tip precisely detects even the slightest bites from octopus. Once hooked, the powerful butt section provides reliable lifting strength. Rated up to 80号 (approx. 300g class), this rod is designed for versatile octopus fishing, allowing you to enjoy both egi and tenya styles with confidence.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
182cm / 6ft	Extra Heavy	MAX80号	-	Extra Fast	112g	94.5cm	2	1.5mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥15,500

JOG-B700H TAKO

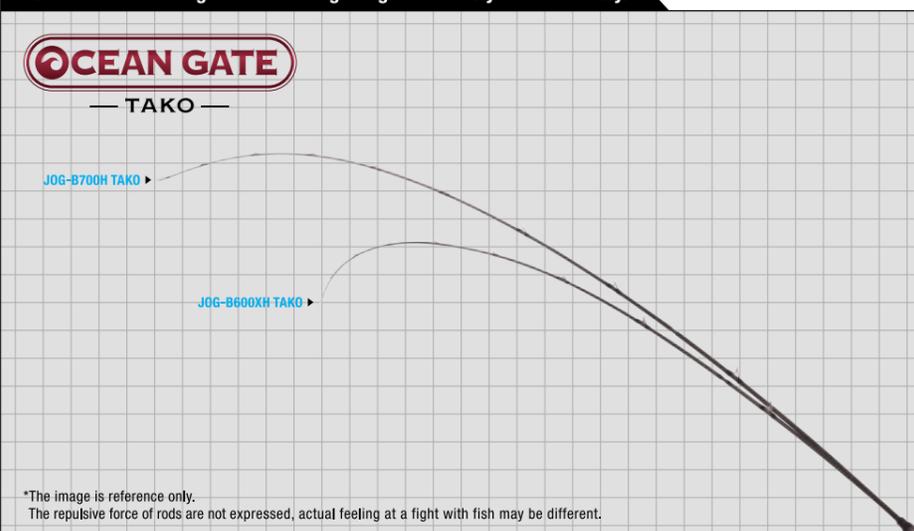

A multi-tubular model that combines sharp responsiveness with powerful torque. It allows precise control of delicate actions such as shaking and tapping, while its casting performance enables you to cover a wide area effectively. Versatile enough for both boat and breakwater fishing, this rod excels in every stage of the game—casting, enticing, hooking, and landing.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
213cm / 7ft	Heavy	MAX60号	-	Fast	112g	110cm	2	2.4mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥15,500

Place rods at 45 degrees with 500g weight statically and vertically.

*The image is reference only. The repulsive force of rods are not expressed, actual feeling at a fight with fish may be different.

— MEBARU —

Reborned for rock fish anglers

The Ocean Gate Mebaru series, is one step ahead of the standard in Mebaru that is now evolving day by day. The action required by the angler, which was revealed by repeated the field testing, was closely studied and put into the design. By dividing the series between the Aji model and the Mebaru model, we have prepared a line up that meets the demands of anglers while maintaining cost performance.

K guide frames by Fuji are equipped. The use of PE line is safer due to alconite adpoted for the ring.

《Specification》

JOG-72UL-K ST MB

A highly sensitive model that combines excellent bite absorption with precision control. It detects subtle changes in the current and allows you to trace your target range accurately with its delicate tip.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
218cm / 7ft2in	Ultra Light	1-7g	PE #0.15-04	Fast	85g	112.5cm	2	0.8mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥16,500

JOG-76L-K ST MB

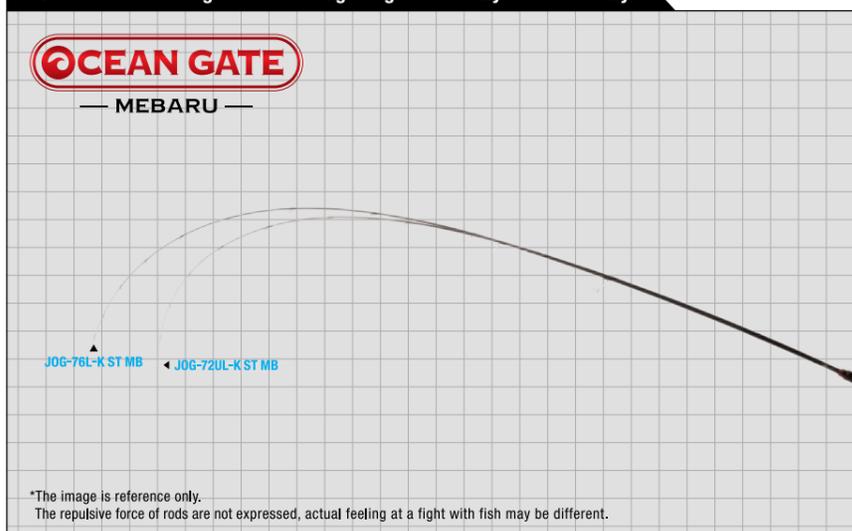

An all-around model featuring a manageable 7'6" length and a highly sensitive solid tip. Its exceptional handling performance and supple blanks absorb the powerful runs of big mebaru, lifting them smoothly and securely.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
228cm / 7ft6in	Light	1-10g	PE #0.15-04	Fast	90g	117cm	2	0.8mm

Carbon Fiber: 98% Glassfiber: 2%, Epoxy resin Price: ¥17,000

Place rods at 30 degrees with 100g weight statically and vertically.

Jackson Technology

A 10.3% increase in average casting distance compared to standard 170 mm minnows.

Normal

Since air vortices form near the lip, the lure easily loses balance.

Equipped with VG

By generating small vortices, it keeps larger vortices away from the lip.

Vortex Generator

Patent registered No.7032806

The vortex generator mounted on the lip suppresses the air turbulence created by the lip during casting, stabilizing the lure's flight posture. As a result, it avoids unnecessary air resistance and consistently achieves surprisingly long casting distances. Because the posture remains stable, it also minimizes negative effects even in tough conditions, such as strong headwinds that normally make casting difficult.

Metal Effect (Stay Fall)

It stops falling.

Sharp **Smooth**

Body

Smooth **Stop** **Sharp**

Water Flow

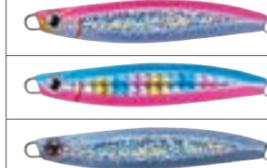

Jackson Technology

A metal jig that bites into the water and creates the crucial "pause" that triggers strikes.

G-Control Ultimate Heavy Sinking Minnow

Woven Roll Action
Despite weighing 28g, it can swim at a retrieve speed comparable to that of a 14g-class sinking minnow—about half its weight.

Second Lip
It generates lift that raises the body, counteracting its tendency to sink and dramatically improving response during slow retrieves.

The unique second lip redefines what a heavy-weight minnow can do!

Pin Tail サゴシ Tune サワラ Tune

The industry's first design dedicated specifically to Spanish mackerel.

Within its steady wobbling action, it unexpectedly produces a flat-side flash, releasing strong flashing to provoke strikes.

The flat-sided, three-surface body delivers powerful flashing that strongly attracts fish.

Trout Signal

A standard rod in harmony with nature.

Trout Signal is a user-friendly rod that allows both advanced and beginner anglers to easily cast and manipulate lures. Sharing components with the higher-end model, Kawasemi Rhapsody, it maintains high quality while keeping the price affordable! Furthermore, the blank colors are selected to blend seamlessly with nature, such as rivers and streams making them visually appealing on social media. With three colors available for each model, you can choose according to your preferred style. Pick up the Trout Signal and explore the diverse styles for trout fishing in streams and areas. You'll surely discover a new world of trout fishing!

A color lineup that easily blends with nature, such as mountain streams, and is also well-suited for outdoor activities like camping.

Comes with a dedicated rod bag in the same color as the blanks.

Fuji-made guides.

《Specification》

TRSS-48L [Native Model]

A basic spinning model designed for versatile mountain-stream fishing. It handles everything from minnow twitching to steady retrieves with spinners and other lures, and with its easy-to-manage length and balanced action, a single rod is all you need to cover an entire stream.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
142cm / 4ft8in	Light	MAX8g	MAX6lb	Fast	82g	73.5cm	2	1.5mm

Carbon Fiber: 99%, Other Materials: 1% Price: ¥12,500

PORTABLE MODEL

Collapsed Size **30cm** Piece **5**

Introducing a fully-fledged multi-piece pack rod at an affordable price from Trout Signal. The collapsed size is an astonishing 30cm!! It comes with a dedicated rod case and can be compactly stored in a backpack. Perfect for mountain stream trout fishing! It easily fits into a carry-on-sized backpack or suitcase, making it a reliable companion for your travels.

A color lineup that easily blends with nature, such as mountain streams, and is also well-suited for outdoor activities like camping.

Special semi-hard case that can be stored compactly

Fuji-made guides.

TRSS-43L 5P

A versatile 5-piece rod that's easy to carry and performs equally well in local streams and on long-distance trips. The light-action design allows you to control spoons and minnows with precision, combining nimble handling with exceptional portability.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
130cm / 4ft3in	Light	MAX6g	MAX6lb	Fast	81g	30cm	5	1.2mm

Carbon Fiber: 90%
Other Materials: 10%
Price: ¥14,000

CGR 4 511729 013807

TRSC-43UL 5P

The supple blank delivers a smooth casting feel, allowing you to place your lure precisely where you intend. Its 5-piece construction allows for compact storage, combining portability and on-water performance—an essential rod for active anglers.

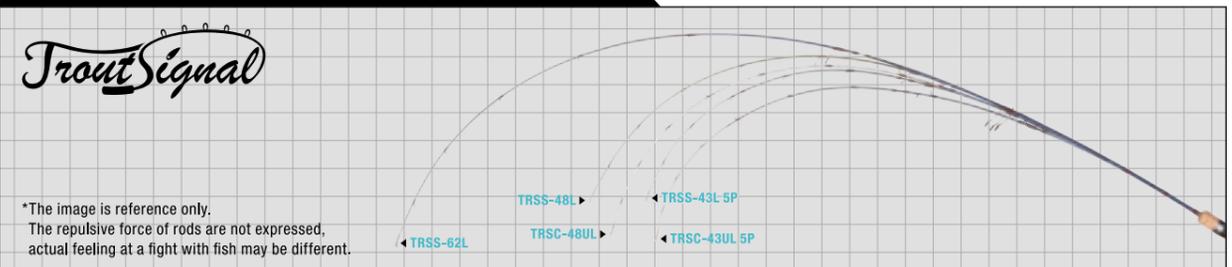

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
130cm / 4ft3in	Ultra Light	MAX6g	MAX4lb	Fast	80g	30cm	5	1.1mm

Carbon Fiber: 90%
Other Materials: 10%
Price: ¥14,000

CGR 4 511729 013814

Place rods at 35 degrees with 150g weight statically and vertically.

*The image is reference only.
The repulsive force of rods are not expressed,
actual feeling at a fight with fish may be different.

Kawase mi Rhapsody

The upper reaches of rivers, called mountain streams, are in an environment with restriction or covered with ruggedness, and it is often difficult to fish. In such places, many gorgeous fish live, and sometimes large ones are hiding there. Throw a lure to an impregnable point and attracting mountain fish is the real pleasure.

However, it is also true that you may feel stressed because you cannot clear obstacles. Therefore, we designed the Kawase mi Rhapsody to be free from the stress in these kinds of heavy cover tight situations. For example, "overhead tree branches", "rocks behind", "grass underfoot", carefully selected lengths that allow you to concentrate on the cast without being distracted by the surrounds. Not only that, but by designing the action so that each model has a role, it corresponds to diversifying lure variations and techniques. By adopting the SiC-S ring, the cast feel of lightweight lures, which are often used in trickle style waters, has been further improved. On the other hand, heavy sinking, which has a fast initial velocity, can be cast farther by smoothly passing through the guides after release.

Sometimes surrounding cover has the angler casting with a sidearm or sometimes underhand to miss a branch, but with the support of this rod, it will be possible to deliver the lure accurately every time with ease.

Grip using wood with beautiful wood grain, by using natural materials.

Fuji K guide is used. The ring is a thin SiC-S.

A special semi-hard case is attached to PORTABLE MODEL and TERESCOPIIC MODEL. Because it can be stored compactly, keeping the rod safe when walking trails and streams.

《Specification》

SPINNING MODEL

KWSM-S46UL+

A well-balanced model positioned between ultra-light and light classes, combining casting performance with excellent lure control. With a versatile 4'6" length ideal for standard mountain streams, it features a short grip designed to prevent interference with the wrist during twitching, making it highly comfortable and easy to handle.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
137cm / 4ft6in	Ultra Light +	MAX7g	MAX4lb	Regular	76g	71cm	2	1.4mm

Carbon Fiber: 97%
Glassfiber: 3%, Epoxy resin
Price: ¥28,500

NEW KWSM-S411L

A special rod designed to boldly tackle streams with heavy-weight lures. The firm blanks deliver precise rod action to the lure, allowing for exceptional control even in strong currents. The slightly shorter grip design ensures smooth and effortless flip casting.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
150cm / 4ft1in	Light	MAX8g	MAX6lb	Fast	80g	77.5cm	2	1.5mm

Carbon Fiber: 99%
Other Materials: 1%
Price: ¥29,000

KWSM-S52UL

A delicate model designed for lightweight lures such as floating and suspending types. The blank bends smoothly after hooking, absorbing the fish's movements to greatly reduce lost fish. A well-balanced rod that delivers both crisp handling and dependable stability.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
158cm / 5ft2in	Ultra Light	MAX6g	MAX4lb	Regular	91g	82cm	2	1.1mm

Carbon Fiber: 98%
Glassfiber: 2%, Epoxy resin
Price: ¥27,000

KWSM-S601ULL

A versatile trout rod designed to handle everything from upper to middle streams. The grip length is optimized for superb handling, supporting comfortable and accurate casting. Capable of working a wide range of lures—from minnows to spoons—this all-round model adapts effortlessly to various stream situations.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
185cm / 6ft1in	UL Tip Light	MAX8g	MAX6lb	Fast	96g	95cm	2	1.2mm

Carbon Fiber: 97%
Other Materials: 3%
Price: ¥31,000

CASTING MODEL

KWSM-C46L

A control-focused model designed for quick, rhythmic lure presentations with compact rod movements. The rod's strong rebound power enables low-trajectory casts, allowing you to accurately target tight, confined spots with confidence.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
137cm / 4ft6in	Light	MAX8g	MAX6lb	Fast	94g	72cm	2	1.1mm

Carbon Fiber: 95%
Glassfiber: 5%, Epoxy resin
Price: ¥27,000

KWSM-C43UL-G

The first glass-composite model in the Kawase mi series. It combines the signature flexibility of glass with the lightweight performance of carbon. With its 4'3" length and short-grip design, it allows for smooth and comfortable backhand casting.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
130cm / 4ft3in	Ultra Light	MAX8g	MAX4lb	Regular	76g	67.5cm	2	1.4mm

Carbon Fiber: 50%
Glassfiber: 50%, Epoxy resin
Price: ¥29,000

PORTABLE MODEL

KWSM-S41L 5P

A perfected pack-rod designed for use in headwaters and small streams. Its fast-action design specializes in precise, close-range pinpoint casting, giving you complete control over lure manipulation. A well-balanced rod that combines excellent portability with reliable on-the-water performance.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
125cm / 4ft1in	Light	MAX8g	MAX4lb	Fast	79g	28cm	5	1.1mm

Carbon Fiber: 97%
Other Materials: 3%
Price: ¥31,000

KWSM-C41L 5P

A technical model featuring a 5-piece design for compact storage and excellent portability. Its short length enables highly accurate casting, while the crisp, responsive blank delivers sharp minnow action, allowing you to confidently and precisely tackle any mountain stream.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
125cm / 4ft1in	Light	MAX8g	MAX4lb	Fast	79g	28cm	5	1.1mm

Carbon Fiber: 97%
Other Materials: 3%
Price: ¥31,000

TERESCOPIIC MODEL

KWSM-C47L-T

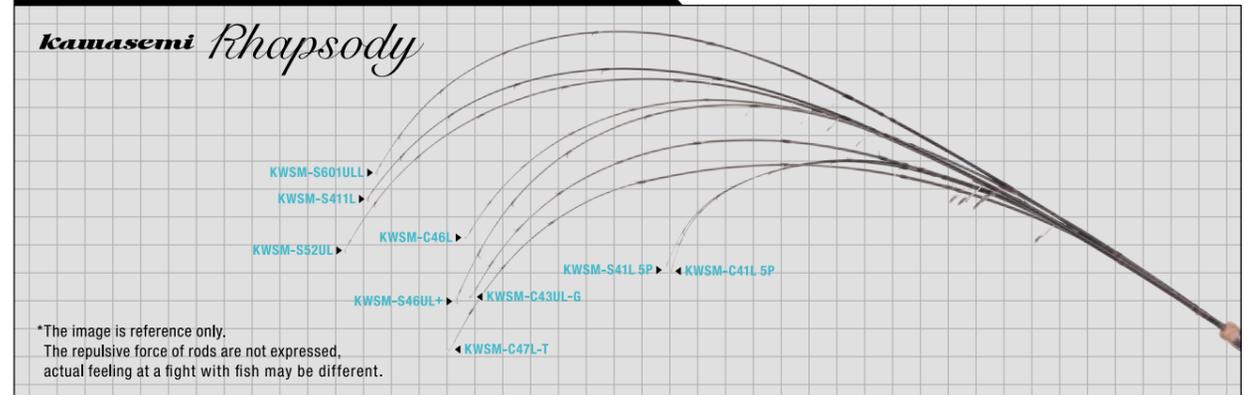

Despite its compact, easily stowable telescopic baitcasting design, this model delivers highly accurate, technical casting performance. It combines excellent portability with precise lure control, allowing active anglers to confidently send their lure exactly where they intend.

Length (cm / ft)	Power	Lure Weight	Line	Action	Self Weight	Collapsed Size	Piece	Tip Diameter
140cm / 4ft7in	Light	MAX8g	MAX6lb	Fast	88g	50cm	4	1.3mm

Carbon Fiber: 98%
Glassfiber: 2%, Epoxy resin
Price: ¥28,000

Place rods at 35 degrees with 150g weight statically and vertically.

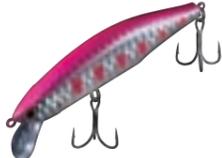

*The image is reference only.
The repulsive force of rods are not expressed,

Activity report

FY 2025 (#1% Social Good) Activity Report

Juvenile fish release Juvenile fish equal to 1% of the lure's annual sales volume in the previous year are released in the following year.

Lure sales in fiscal 2024 were **922,454** pcs
 $922,454 \text{ pcs} \times 1\% = \mathbf{10,000 (9,225)}$ fish

In fiscal 2025, a total of **10,000** juvenile fish were released.

4/10/2025 Miho beach, Shizuoka

7,000 fish
(Marbled Rockfish)

3,000 fish
(Flounder)

Clean-up activities Allocate 1% of total working hours of all employees, including representatives, to environmental protection activities

Total hours worked **38,750** hours $\times 1\% = \mathbf{390}$ hours

A total of **390** hours was devoted to waterside cleaning, underwater cleaning and release.

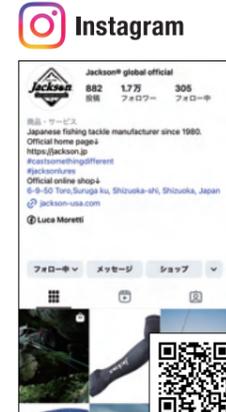

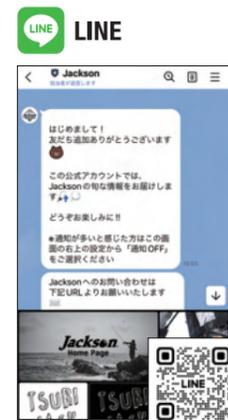

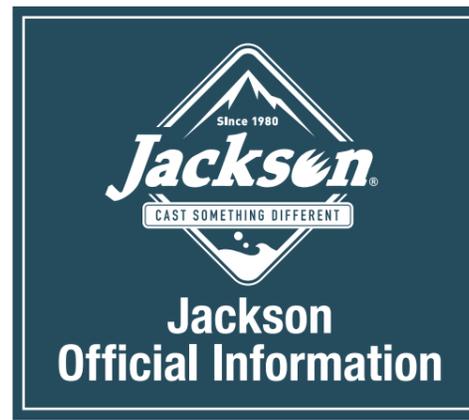

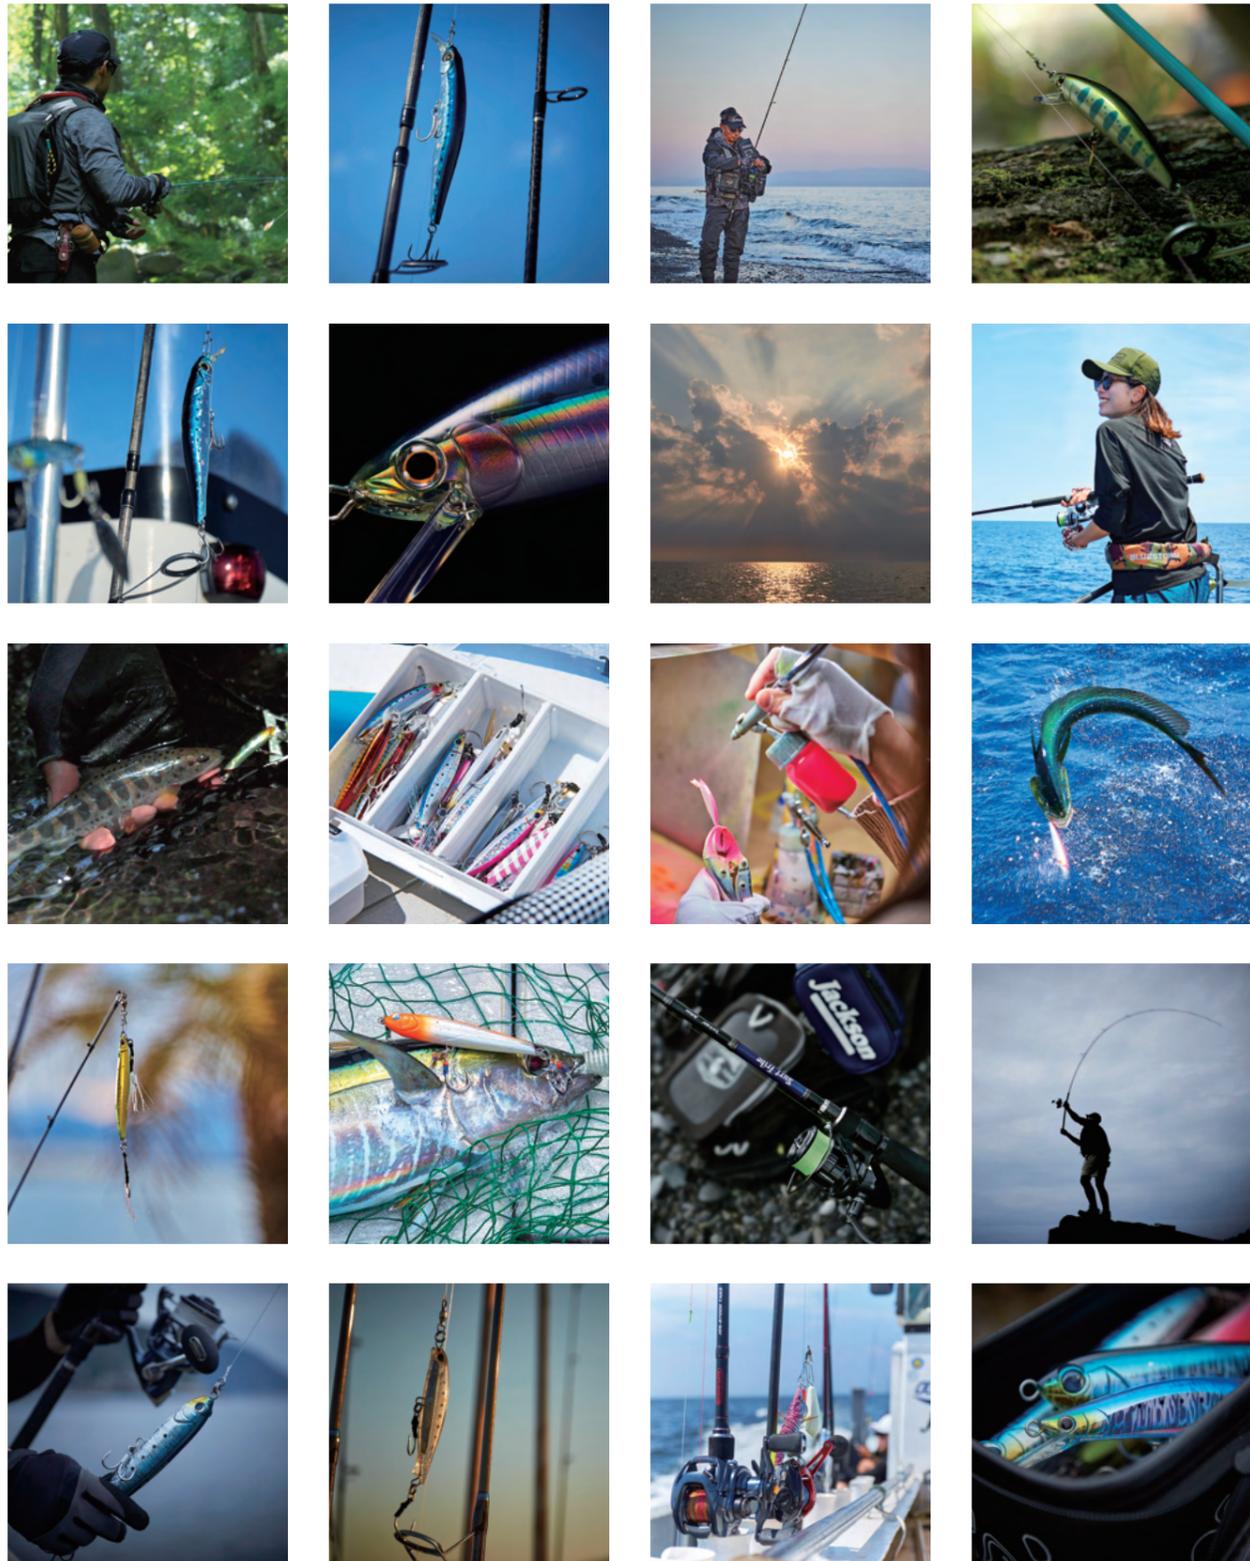

Photos of the cleanup activities

About rod warranty

~Because of the improvement for Jackson rods, we will change from 3-year warranty to 1-year warranty~

- Products after October 2021 will comply with the rule. ● Products released before October 2021 will continue to have 3-year warranty.

Caution when using Rod

- 1. The material conducts electricity well, please be careful of electric shock by high-voltage line and wiring, please keep your rods away from wirings to prevent fatal accidents.
2. Please be careful of electric shock by lightning, please refrain from using when lightning strikes are present in the area.
3. Use after verifying the safety conditions of the surroundings, It is extremely dangerous if the rod, lure or hook hit each other.
4. Use for fishing purposes only
5. Keep out of the baby's reach
6. In case you broke the rod, please avoid touching the tips since the surface is dangerous.
7. Please cover your eyes with glasses and wear gloves and caps to protect yourself from the damage of broken rods.
8. Due to the material, rods can be broken by distorting, including high sticking the rod and over bendinging.

Caution when using Lure

- 1. Use for fishing purposes only
2. Keep out of the baby's reach
3. Use after verifying the safety of the surroundings
